Fiori on a budget

Define your priorities

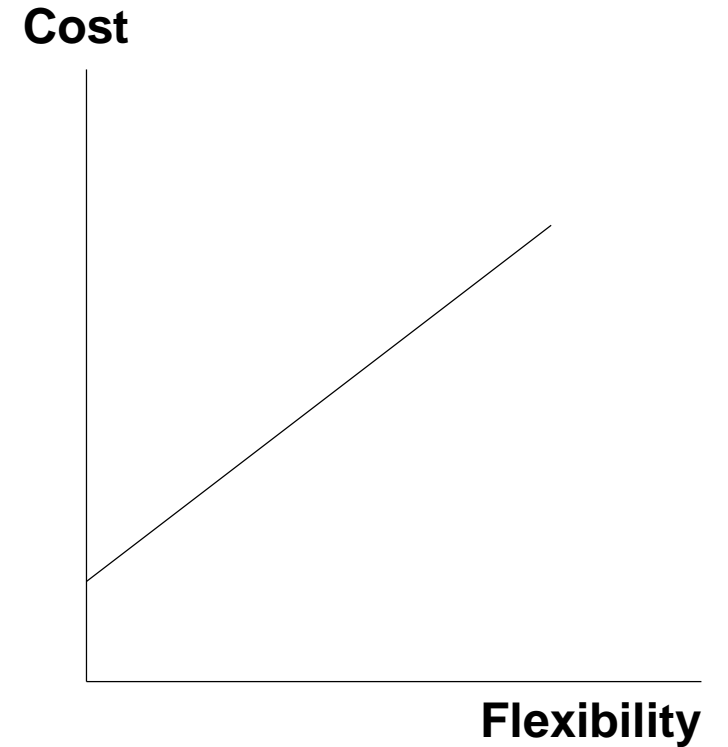

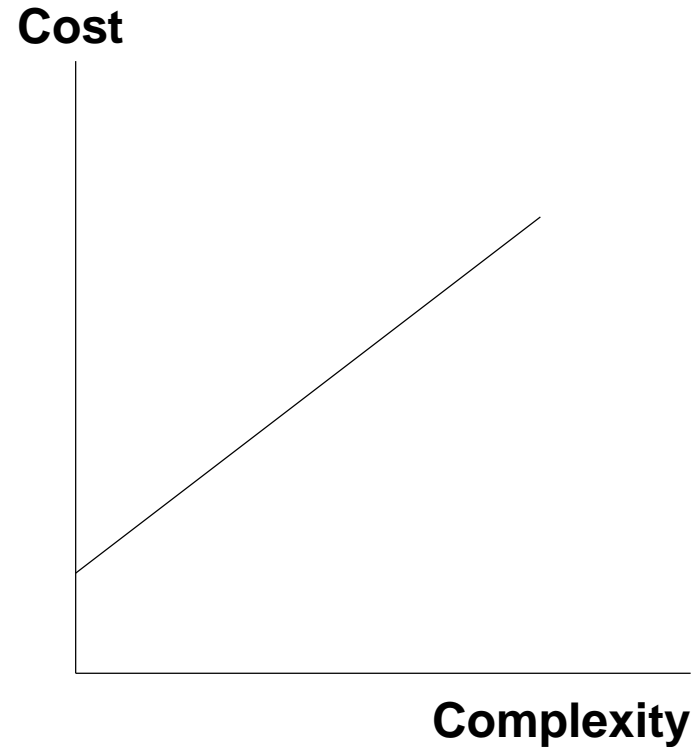

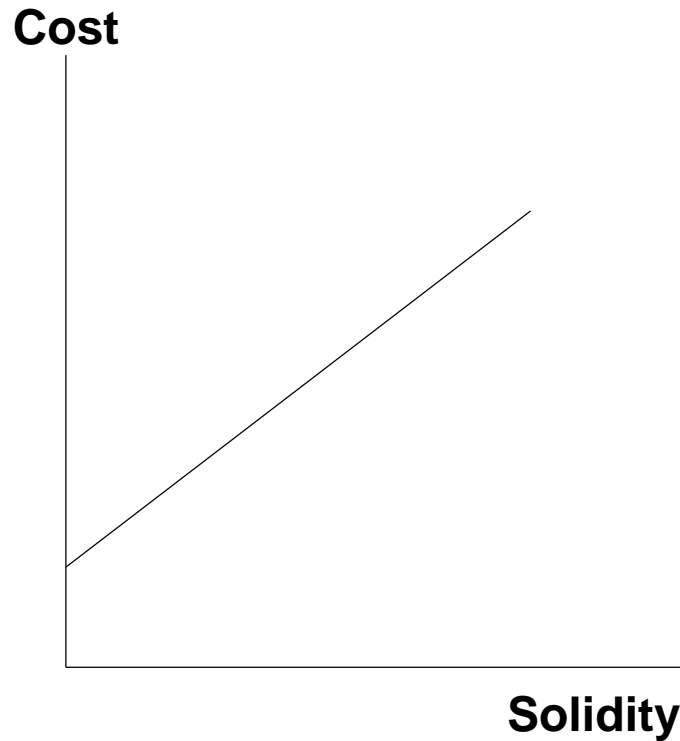

# Fiori on a budget

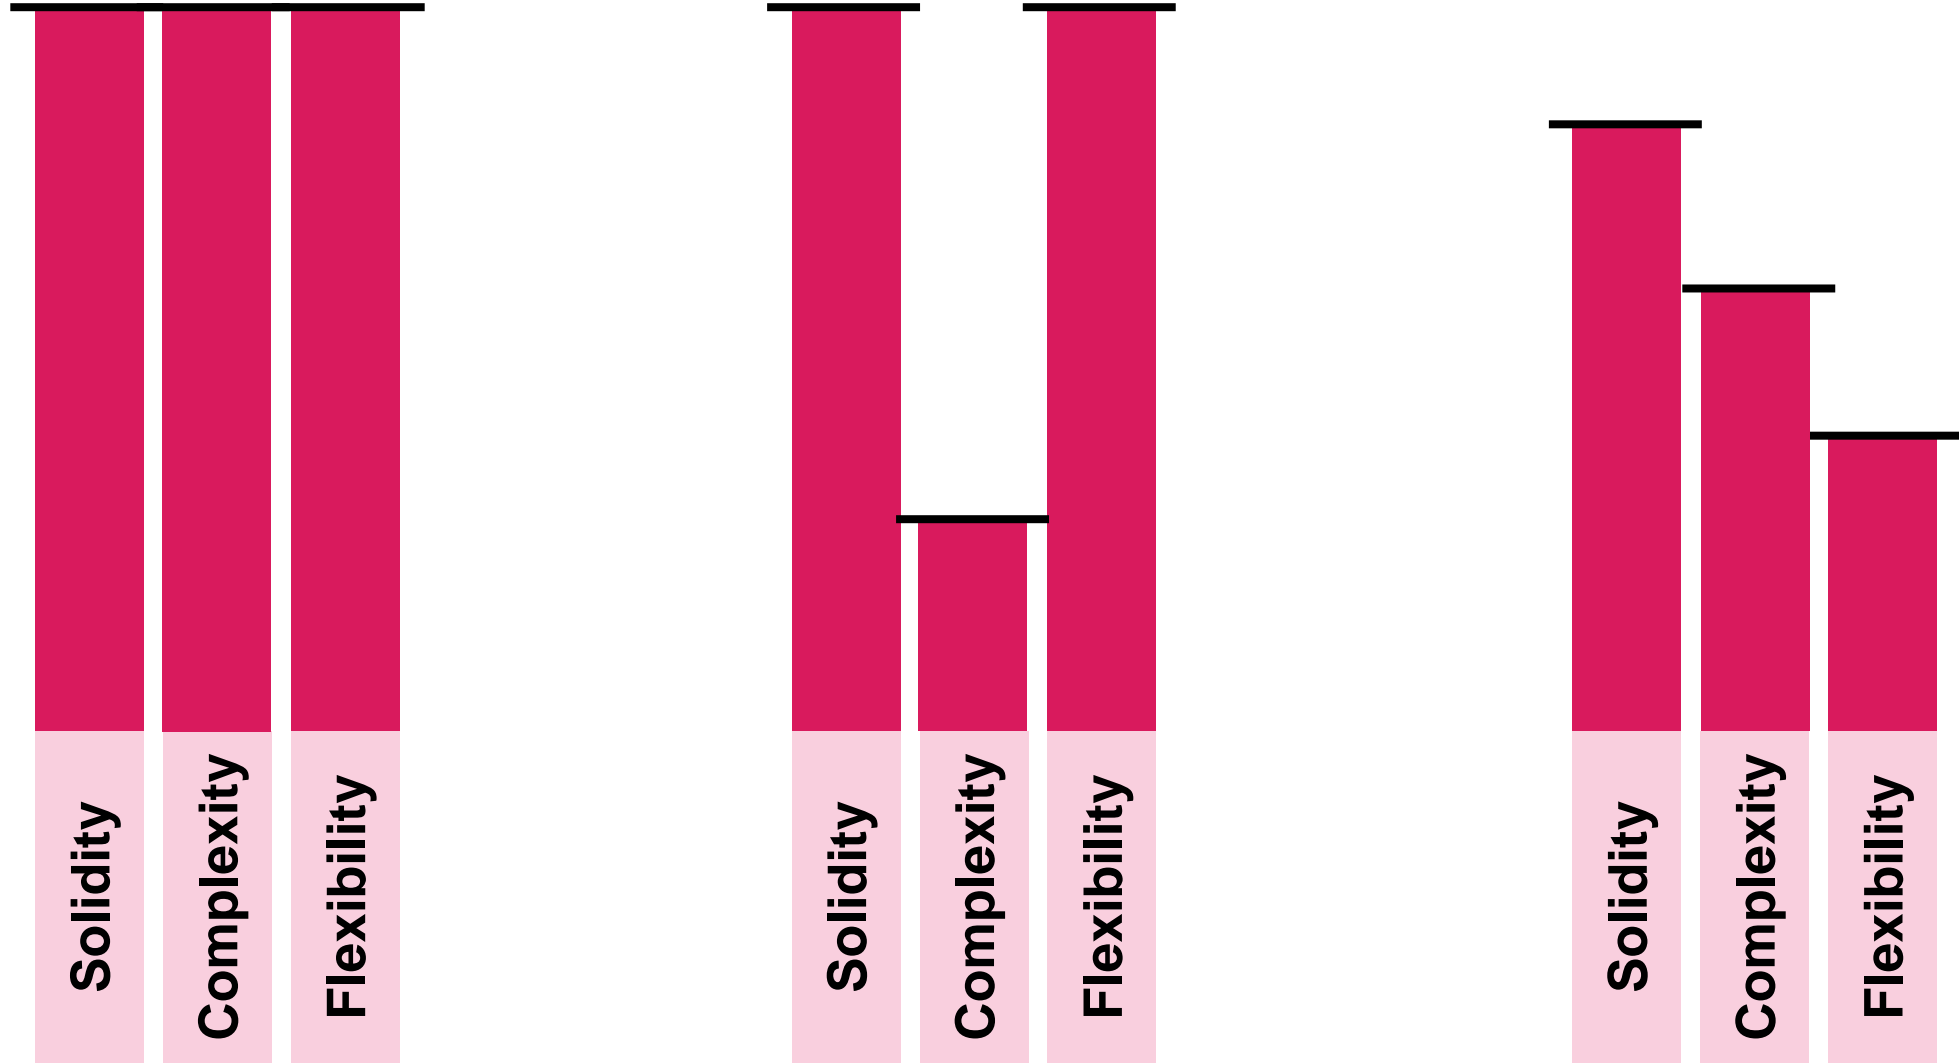

Build a custom app

# Custom apps development

$$\text{Development Cost} = \text{Solidity} + \text{Complexity} + \text{Flexibility}$$

# Reducing the development cost

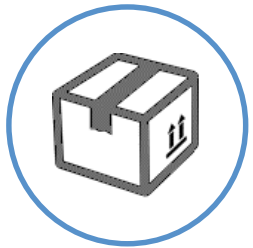

# Stelo

## App generation

Provides robust framework; pre-delivered Gateway service

## Out-of-the-box features

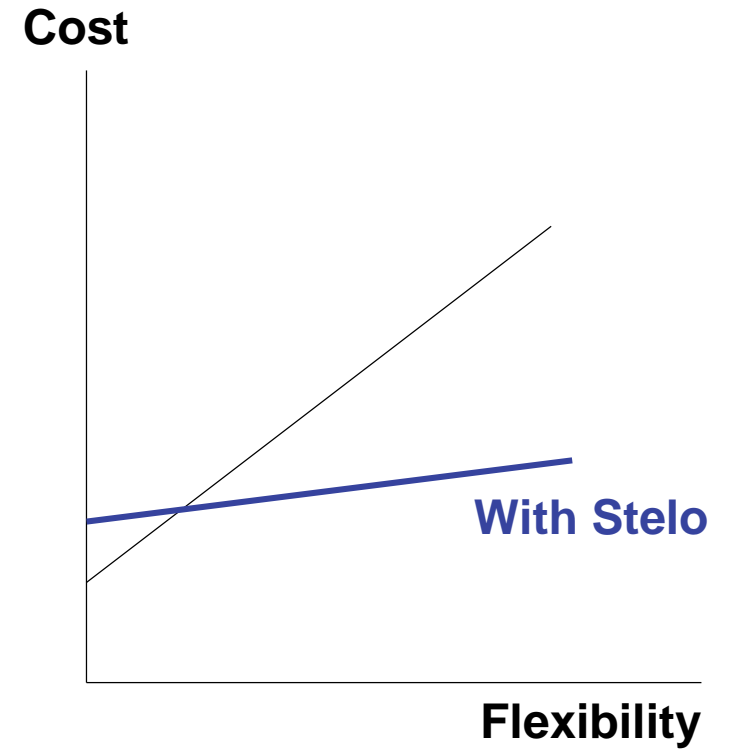

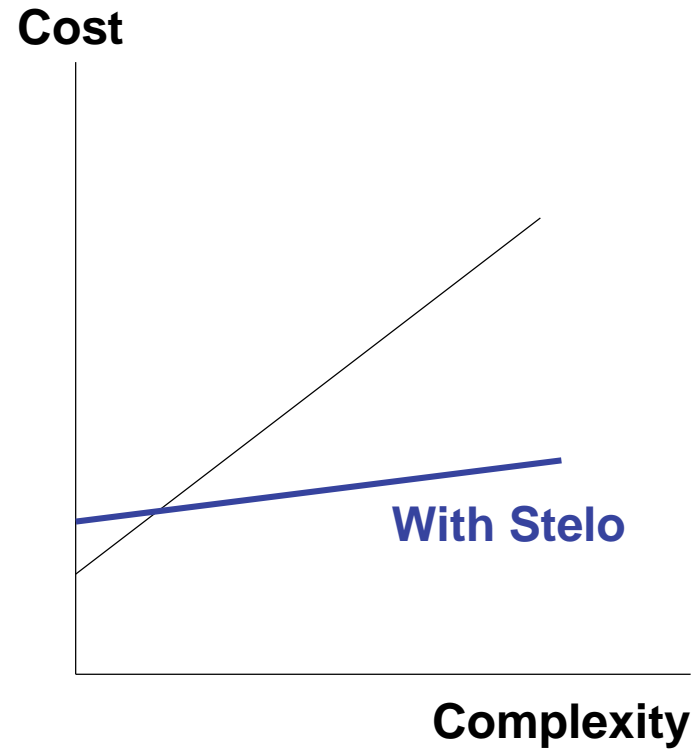

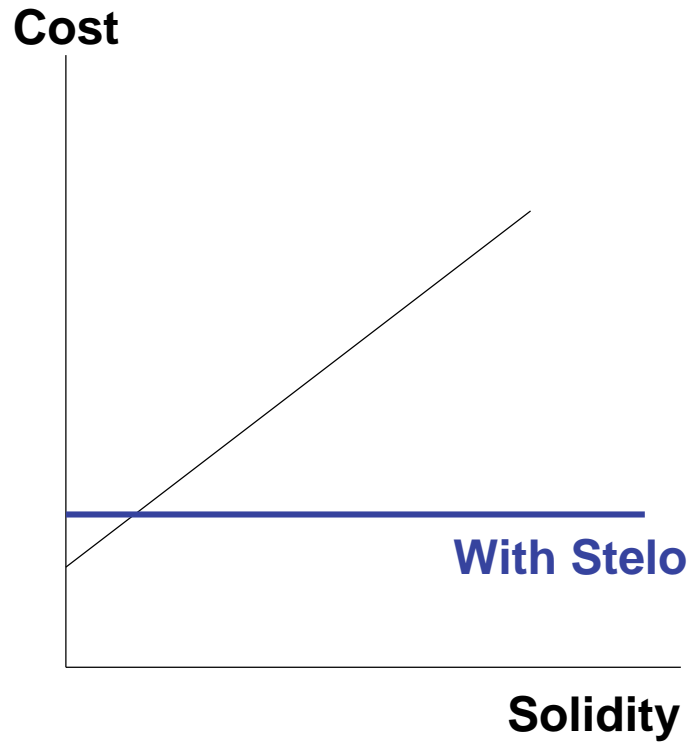

Audit trail, Inbox integration, attachments, save as draft, dashboard, process integration, mandatory field checks, dynamic field/section attributes...

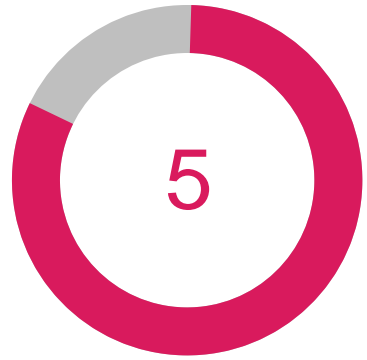

## Standard approach

Easy to make changes to apps – fields, logic, process

# Reducing the cost with Stelo

Fiori on a budget

Build a custom app – with Stelo

Fiori on a budget

Demonstrate the return

# Thank you
